### **PSC APPROVES REQUEST TO SELL ASSET**

JEFFERSON CITY--The Missouri Public Service Commission has approved an application filed by Union Electric Company d/b/a AmerenUE seeking to sell a transformer (a 750 kV, three-phase transformer) to Behnen's Container Service, which is located in Ferguson, Missouri.

AmerenUE stated in its application that Behnen's Container Service is currently a customer of the electric company and will continue to be a customer if the sale is approved. According to the application, no other customers are served by the transformer which is owned by AmerenUE and leased to Behnen's. In a June 10 filing, the PSC staff recommended the sale be approved.

The Commission, having reviewed the application as well as the PSC staff recommendation, finds the proposed transaction is not detrimental to the public interest and should be approved.
